Saurav Pandey

github.com/SauravPandey56 linkedin.com/in/sauravpandey56 Pandeysaurav108@gmail.com City: Dehradun

Profile Summary

Software Developer specializing in **MERN stack and Java**, with experience building scalable full-stack applications and developing robust RESTful APIs. Strong foundation in **Data Structures and Algorithms**, with practical experience in authentication systems, database design, and backend performance optimization. Passionate about developing efficient, maintainable systems and solving complex technical challenges.

Skills

Languages: Java, JavaScript, C, C++,
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MySQL, MongoDB
Tools: Git/GitHub, VS Code
Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Soft Skills: Technical Communication, Problem-Solving, Adaptability, Teamwork

Education

Graphic Era Deemed to be University Dehradun, Uttarakhand *Aug 2025 – May 2027*
Master of Computer Application (CGPA 8.33)
T.P.S College Patna, Bihar *Aug 2022 – May 2025*
Bachelor of Computer Application (Percentage: 76%)

Projects

Online Job Portal | React.js, Node.js, Express.js, MongoDB, Tailwind CSS *Dec 2024 – Feb 2025*

- Developed a **full-stack job portal** enabling recruiters to post jobs and job seekers to search and apply for positions.
- Designed **MongoDB schemas using Mongoose** for efficient storage and retrieval of users and job postings.
- Implemented **JWT-based authentication and role-based access control** for recruiters and applicants.

URL Shortener (Team Project) | *Node.js, Express.js, MongoDB / MySQL, REST APIs*

- Implemented **short URL generation** using unique identifiers mapped to original URLs in the database.
- Developed **click tracking and analytics functionality** to record visit counts and timestamp data.
- Implemented **high-performance redirection logic** using optimized backend routing mechanisms.
- Collaborated in a team environment using **Git and GitHub for version control and code integration**.

Quiz Application| *React.js, Node.js, Express.js, MongoDB*

- Developed an **interactive quiz platform** supporting multiple-choice questions and automated score evaluation.
- Implemented **RESTful APIs** using Node.js and Express.js to manage quiz questions, user attempts, and results.
- Designed **MongoDB schemas** to store quiz data, user responses, and score records efficiently.

Achievements

- Solved 300+ Data Structures and Algorithms problems across LeetCode, GeeksforGeeks, and InterviewBit.
- CODING PROFILE :- https://codolio.com/profile/sauravpandey
- Built 3 full-stack MERN applications featuring REST APIs, JWT authentication, and MongoDB-based data management.
- Participated in a technical workshop on Problem Solving and Generative AI, exploring algorithmic thinking and modern AI-driven development tools.
